RATON AND COLFAX COUNTY

GATE CITY OF THE SUNSHINE STATE.

Raton is pronounced Rah-tone, and means in Spanish, "Mountain Squirrel." Raton is the county seat of Colfax county, and was incorporated on February 23d, 1891. Has at present a population of 7,000.

The elevation is 6,666 feet. The climate is unsurpassed and the scenery in and about Raton is second to none.

The National Old Trails road follows the historic Santa Fe Trail directly through Raton. The Gulf-to-Colorado Highway also passes through the city. None of the tributary points exceed 49 miles distant, and the nearest six miles, with direct railroad connections, and all are valuable contributors to Raton trade. The six flourishing camps of the Saint Louis, Rocky Mountain & Pacific Company, (coal mining) and the great Dawson camp of the Phelps-Dodge Corporation, together have a monthly payroll of about \$400,000.

The coal deposits in the Raton mountains are almost too vast for comprehension. The official report of the United States Geological Survey places the known coal area at 870,000 acres, representing 30,805,000,000 tons of fine bituminous coal, estimated \$40,000,000,000. The mining of 10,000,000 of tons each year for three thousand years would not exhaust this amazing field. This superabundance of cheap fuel makes Raton an ideal spot for manufacturers.

The Rocky Mountain Company last year mined and sold nearly 2,000,000 tons; the Phelps-Dodge Corporation over 1,000,800 tons; together they produced 90.5 of the coal mined in New Mexico.

Raton is a division point on the main line of the A., T. & S. F. Ry. Company, with extensive shops and round-house, and with a monthly payroll averaging \$115,000.00.

Raton has a municipally-owned water system valued at \$400,000.00, and a lighting system worth \$60,000.00; also a modern and complete sewerage system. There are three school buildings in Raton, one of which is the Colfax County High School, built at a cost of \$125,000; also a High School gymnasium, costing \$40,000.00, with equipment worth about \$2,000,000. The courses of study offered are modern and practical. Forty-three teachers are employed, and the present enrollment is 1,390 pupils. Raton has nine churches; a \$40,000.00 public library; a \$75,000.00 postoffice; a \$60,000.00 municipal building and theatre; a modern and well equipped fire department, and three beautiful parks for the public.

The Miners' Hospital, a state institution, is strictly modern in every respect. There are three banks, with combined deposits of over \$3,000,000.00. Raton has 985 telephones in active service under the Bell System. The Elks' Home of Raton cost \$40,000.00, and the Masonic Fraternity purpose building a \$100,000.00 temple. Ten blocks of paving is now under construction.

Raton has an ice plant; seven garages; an extensive green house; two lumber yards and a planing mill; two hotels—one of which is the largest in New Mexico; five restaurants and two newspapers.

Colfax county has a population of 25,000, with an area of 3,960 square miles, three times the size of Rhode Island. The average annual rainfall is 15.75 inches. The county's assessed valuation is \$30,000,000, and its bonded indebtedness is only \$59,000.00. This county has 240 miles of railroad, and annually produces nearly 100,000 head of cattle and over 82,000 head of sheep. There are 36,545 acres of irrigated land and 62,622 acres of dry farming land in the county, besides 1,867,145 acres of grazing land. The principal crops are pinto beans, wheat, sugar beets, alfalfa, corn, oats and potatoes. There are wonderful opportunities for agricultural development in Colfax county, more especially in the immediate vicinity of Raton. Land values: Dry farming, \$7.00 to \$25.00 per acre; irrigated, \$75.00 to \$100.00 per acre.

The Northern New Mexico Fair Association is a Raton organization, occupying spacious grounds within the city.

There are good opportunities in Raton for a flouring mill, a creamery and a produce house.

For detailed information write Raton Chamber of Commerce, Box 58, Raton, New Mexico.

"Raton Welcomes You."

Nation has an air plant, even water, an extensive green house, two bathing yards and a plant with two tanks—one of which is the largest in New Mexico; five restaurants and two beer-
houses.

Colfax county has a population of 25,000 with an area of 5,900 square miles, three times the size of Rhode Island. The average annual rainfall is 15.75 inches. The county's assessed valuation is \$20,000,000 and its bonded indebtedness is only \$20,000.00. The county has 510 miles of railroad and annually produces nearly 100,000 head of cattle and over 25,000 head of sheep. There are 35,745 acres of irrigated land and 85,615 acres of dry farming land in the county. Products: 1,857,175 acres of growing land. The principal crops are grain, beans, wheat, sugar beets, alfalfa, corn, oats and potatoes. There are wonderful opportunities for agricultural development in Colfax county, more especially in the immediate vicinity of Nation. Land values: they range from \$1.00 to \$25.00 per acre; irrigated, \$75.00 to \$100.00 per acre.

The Northern New Mexico Fair Association is a Nation organization, occupying spacious grounds within the city.

There are good opportunities in Nation for a farming well, a restaurant and a produce house.

For detailed information write Nation Chamber of Commerce.

Box 58, Nation, New Mexico.

"Nation Welcomes You."

114 S. 1st Street**Raton, New Mexico****YOU SHOULD BE REGISTERED**

Under every heading in the Directory where people might look for you. The Directory is the natural buyer's guide, and one glance the fact that it is working 365 days in the year, that no live concern can afford to overlook it.

Your name in bold type under the headings not only gives you an advantage over competitors not so described, but protects all other advertising you may do.

Frequently the desire to purchase is not aroused until the display advertisement that suggested it is misplaced or thrown away. Then the natural place to look is in the Directory.

THE COST

Of registration is so slight when one considers its value, and the fact that it is working 365 days in the year, that no live concern can afford to overlook.

Roswell

New Mexico

The New Mexico Military Institute is located here, with barracks, natatorium, brass band and all the modern conveniences of a well-equipped school. Roswell is the business center of the Pecos valley and all lines are represented by commodious, well managed houses, while the professional men are of a superior class. There are tributary to Roswell about 5,000 acres of orchards, three-fourths of which are in bearing, whose fruits are known throughout the West for their excellent color, flavor and keeping qualities; 15,000 to 18,000 acres of alfalfa hay and 5,000 to 6,000 acres in small fruits, vegetables, cereals, etc. The stock interests tributary to Roswell are very large, three million pounds of wool are shipped annually, as well as many thousands of cattle, horses, sheep and lambs. Population 9,000. Altitude 3,570 feet.

DENVER, COLORADO

SANTA FE.

The capital of New Mexico and second largest city in the State, enjoys the distinction of being the oldest town on the American continent. Its permanent settlement by Europeans in 1543 antedates the founding of Jamestown and the landing of the Pilgrim Fathers at Plymouth by more than 20 years. It is the headquarters of the federal and state officers, the State Supreme court and the Catholic Diocese and Arch-bishop of New Mexico, Arizona and Colorado; it is adorned by many fine modern buildings, including the new Capitol, Federal building, court house, penitentiary, Indian schools, State Deaf and Dumb school, college for boys and an academy for girls, also a parochial school, a Presbyterian mission school for boys and one for girls, business houses and private residences, and is rendered interesting by the presence of the ancient adobe Palace and the oldest church and the oldest house standing on American soil. It has an excellent public school system, and all the religious denominations are well represented. It is lighted by electricity. Its climate is remarkably equable. The summers are cooler at Santa Fe than any other meteorological station, while the mean temperature during January, which is the coldest month in the year, is about 28 degrees Fahrenheit. There are three railroads—the Atchison, Topeka and Santa Fe, Denver & Rio Grande and the New Mexico Central Railroads.

Among the new buildings are a large addition to the Sanitarium costing \$100,000, an opera house costing \$25,000, an armory building \$15,000, and a new Scottish Rite Cathedral at a cost of \$250,000. The American School of Archaeology has been established and will be headquarters for research and excavating of the Cliff Dwellers, in connection is the New Mexico Museum.

New postoffice of Santa Fe style to cost \$300,000 now in course of construction; new street lighting system to be ready in the summer. Work now progressing on a new 100-room hotel of Santa Fe style, on the old Fonda site at the end

Santa Fe Trail to cost, complete, \$350,000. Work will commence in the summer on a Knights of Columbus home to cost \$100,000. Work now progressing on the Bitulithic paving of nearly all city streets, same to cost \$450,000.

Santa Fe county is the oldest mineral producer in the southwest. Gold, silver, lead, zinc, copper, turquoise, fire clay and building stone are found in large quantities. The leading districts are the Old and New Placers, the San Pedro, Golden, Macho, Glorieta and Cerrillos. At Madrid, near Cerrillos, are found large coal deposits and the coal deposits extend over a considerable portion of that part of the country. The county seat, Santa Fe, capital of the state, is rich in historic interests and ideally located as a health resort.

Its immediate surroundings possess great scenic beauty. On all sides rise majestic mountains to a height of 13,000 feet, while to the east, west and north are National Forests, 20 miles to the west is the wonderful Pajarito Cliff Dwellers' Park with 20,000 prehistoric habitations. Population of the city 12,500. Altitude 7,013 feet.

SANTA ROSA.

The county seat of Guadalupe county, on the El Paso & Southwestern R. R. Surrounded by a good farming, fruit growing and stock raising country, though generally hilly with some good timber. Santa Rosa consists of an old town and a new, the latter having been laid out by the Alamogordo Improvement Company since the advent of the railroad. There are good schools and churches, public buildings, stores and residences. Population 1,000. Altitude 4,600 feet.

Thorough preparation of teachers and school officers for all departments of school work.

Four years high school and full college course above.

Teachers' classes in all common school branches organized every term.

Strong faculty, commodious buildings, excellent dormitories with every modern convenience; excellently equipped laboratories for the study of physics, chemistry, biology, manual training, agricultural and home economics.

Spacious campus, strong athletics, literary societies, musical organizations, health record unexcelled.

ACTUAL COST FOR BOARD AND FURNISHED ROOM

Teachers' courses in common branches, high school and college work will be offered in all departments in the Summer Term.

Ample accommodations for all.

For information write to

W. O. HALL, President

Silver City

New Mexico

SILVER CITY.

(Prepared by Silver City Chamber of Commerce.)

Silver City's citizenship of 4,500 people is inspired with confidence, based upon the business necessity for a great health and trading center at this point, and every modern convenience of welfare has been established.

Located as it is, in the southwestern part of the State of New Mexico, sixty-five miles north of the International boundary of Mexico, in the latitude of Savannah, Georgia, and Cairo, Egypt, having an altitude of 6,000 feet, Silver City has been declared by United States Government physicians to be the ideal health resort of the Southwest.

In the center of a great cattle and mineral section, Silver City's position as the distributing point for this great territory is impreg-

nable. The Atchison, Topeka & Santa Fe Railway serves this section, Silver City being the terminal of the Rincon-Deming branch. The mining camps of Santa Rita, Hurle, Fierro, Pinos Altos, Tyrone, Hanover and Mogollon, with a combined population of over 12,000, patronize Silver City's business institutions. Stock raising has always been an important business in this section of the country and in addition there are two important irrigated districts for which Silver City is the main trading center.

Bank deposits of over \$2,000,000 show the thrift of Silver City's people and are a true index of the general prosperity of the community.

With the Chino Copper Company, only sixteen miles east of here, mining at a rate of 70,000,000 pounds of copper the year; the Phelps-Dodge Burro Mountain Copper Company, twelve miles west of here, producing a similar ratio and with other mining companies in close proximity outputting as never before, Silver City is a stirring scene of present day activity.

Grant County, the county seat of which Silver City is one of the richest in New Mexico, the assessed valuation being over \$24,500,000. Besides the copper, there are to be found in this county, gold, silver, iron, vanadium, alum, turquoise, zinc, lead and meerschau mines. The immense timber lands of the Gila National Forest are to be found in Grant county. The estimated population of the county is 25,000.

SOCORRO

County seat of Socorro county on the Atchison, Topeka & Santa Fe Railway, 76 miles south of Albuquerque, and 180 miles north of El Paso, Texas. A fine productive valley surrounds Socorro, where farming and fruit raising are at the best. A branch railway runs from here to Magdalena. Good churches and schools, location of the State School of Mines.

Located here also is one of the finest hotels in the Southwest, The Val Verde.

Telephone service and electric light plant, flouring mill, brewery and ice plant and large stores with comfortable residences. Population 2,000. Altitude 4,500 feet.

Texico

New Mexico

TEXICO-FARWELL.

Texico, together with Farwell, Texas, constitute the State Line City, Farwell being the name of the Texas portion of the town. Junction of the Pecos Valley & Northern Texas and Texico-Coleman Cutoff of the Santa Fe system and headquarters for the proposed Denver-to-Gulf road of the Rock Island system; 30 miles of grade completed. Being advantageously situated on the state line with both a Texas and a New Mexico depot is a great distributing center, having the benefit of the Texas freight rate. Surrounded by a rich agricultural country which raises everything planted. Texico-Farwell has a population of 1,600. Every 160 acres owned by a farmer. Wants manufacturing enterprises of all kinds. Anglo-Saxon people. No other classes here. Altitude 4,000 feet.

The First National Bank

OF TUCUMCARI

The Oldest and Largest Bank in Quay County. United States Depository.

CAPITAL AND SURPLUS \$130,000.00

TUCUMCARI, N. M.

TUCUMCARI.

County seat of Quay county, and division point on the Rock Island, El Paso & Southwestern, Tucumcari & Memphis, and Dawson Branch of the El Paso & Southwestern. The shops of the El Paso & Southwestern are located here. The monthly payroll is approximately \$70,000. The city derives its name from a mountain five miles from the city. This mountain was named by the Indian Chief Geronimo, "Tucumcari" with the Indian meaning of Mother Breast, so named because of its shape. The surrounding country is occupied by cattle men and farmers. Although a young city of scarcely 17 years of age, it has \$110,000 invested in school buildings and equipment and many monuments in the usual building lines, two fine bank buildings, telephones, elegant factory and other public improvements. Has a new opera house costing \$50,000. It lies in the dry farming belt and although farming is successful, the large portion of the country people devote their time to cattle

WILLARD.

A town in Torrance county, on the Atchison, Topeka & Santa Fe Ry., at its junction with the New Mexico Central R. R. Surrounded by a farming country, while its stock growing interests are large. Nearly all lines of business are represented, although there is room for more. The town is growing rapidly with modern business houses. Good churches and a school house erected at a cost of \$6,000 promises to become one of the important cities of New Mexico. Wells have been sunk showing 1,000 gallons of water per minute, to be used for irrigation purposes, which assures Willard and vicinity abundance of water for irrigation at a reasonable cost. Present population 250. Altitude 6,125 feet.

DENVER, COLORADO

1010 SEVENTEENTH ST., 510 Quincy Block

ALBUQUERQUE & CERRILLOS COAL COMPANY

G. A. KASEMAN, Pres. & Mgr.

MINERS AND SHIPPERS OF "CERRILLOS" ANTHRACITE AND BITUMINOUS COALS AND "MADRID" SMITHING COAL

"CERRILLOS" ANTHRACITE is better than any Anthracite Coal marketed west of Chicago.

"CERRILLOS" BITUMINOUS is the most profitable for dealers to handle and the most satisfactory for domestic purposes of any coal marketed in New Mexico or Arizona.

"MADRID" BLACKSMITH COAL is the equal of any smithing coals.

MAIL**

**An
Incomparable
Assortment of
High Quality
Merchandise
from Which
to Choose**

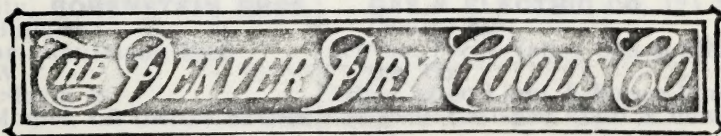

**EVERYTHING
for
EVERYBODY**

Our Moving Stairway to the Second Floor proves a great convenience to many customers in the busy hours when the elevators are crowded. Capacity 3600 an hour.

THE DENVER, with its \$2,500,000.00 worth of new things to see, is as interesting as a museum. When in town drop in at convenience and feel free to go where you are inclined. Everything here has a plain Price mark so you can inform yourself as you stroll about. This invitation is most cordial and your acceptance will be regarded as a favor.

**One Thousand Two Hundred Faithful Employees
Ready to Give You Their Interested Service**
